

Medical Emergencies Procedure

Telephone "000" preferably with a mobile and stay with the patient.

Quickly let the operator know what resources you have with you or can arrange to be brought to you, such as a **First Aid Kit, Emergency Blanket, Defibrillator.**

Do not hang up, follow instructions from the 000 operator.

The operator will request your exact location and will have the club contacted to inform of emergency and location, so club personnel can assist the ambulance, which will arrive to the main club entrance and assist with management of the patient prior to the ambulance arriving.

Defibrillators are located in the Cloak Room at Reception and in the Pro Shop Office.

First Aid Kits are located at the Cloak Room at Reception, in the Pro Shop, Administration and in the Lunch Room in the Green Keepers Shed.
